## Qualitative Information \& Financial Statements, etc.

## 1. Qualitative Information Concerning Consolidated Business Performance

For the first three months of FY 2008, as compared to the same period of the previous fiscal year, consolidated net sales increased $20.1 \%$ to $¥ 43,117$ million, operating income decreased $23.1 \%$ to $¥ 5,927$ million, ordinary income increased $2.6 \%$ to $¥ 9,026$ million and net income increased $22.7 \%$ to $¥ 7,253$ million. Below is a summary of net sales by business division.

## (a) E\&P Division

The E\&P Division sells crude oil, natural gas, liquefied natural gas (LNG) and bitumen. This division posted net sales in the first quarter reporting period of $¥ 39,382$ million, up $22.9 \%$ from the same period of the previous fiscal year, on the back of soaring crude oil prices and the higher sales volumes of trading oil such as Sakhalin crude oil (SOKOL crude).

## (b) Contract Services Division

The Contract Services Division is primarily involved in drilling and geophysical surveys, and recorded net sales in the first quarter reporting period of $¥ 315$ million, down $43.3 \%$ from the same period of the previous year due to a decrease in drilling in the first quarter.

## (c) Other Businesses Division

Our Other Business Division is primarily involved in the sale of petroleum products, including liquefied petroleum gas (LPG) and fuel oil, as well as transportation of natural gas and petroleum products on consignment. This division posted net sales in the first quarter reporting period of $¥ 3,419$ million, up $3.7 \%$ from the previous year.

## 2. Qualitative Information Concerning Consolidated Financial Position

For the first three months of FY 2008, as compared to the same period of the previous fiscal year, investment and other assets increased due to an increase in the difference on valuation of investment securities and an increase in investment securities due to the acquisition of Energi Mega Pratama Inc. (EMPI), mentioned below in Cash Flows from Investing Activities. Also plant, property and equipment increased as a result of progress in drilling a production well in Niigata. As a result, fixed assets increased $¥ 59,676$ million to $¥ 532,583$ million.
Current assets however decreased by $¥ 27,944$ million to $¥ 77,207$ million. Total assets increased by $¥ 31,732$ million to $¥ 609,791$ million.
With respect to liabilities, current liabilities decreased $¥ 7,065$ million to $¥ 29,799$ due to the payment of accounts payable for the Shiroishi-Koriyama gas pipeline completed in March 2007 and the payment of income tax liabilities etc. Long-term liabilities, however, increased by $¥ 11,128$ million for reasons including an increase of $¥ 12,340$ million in deferred tax liabilities due to an increase in the difference on valuation of investment securities. As a result, total liabilities increased $¥ 4,062$ million to $¥ 163,192$ million. Net assets increased $¥ 27,669$ million to $¥ 446,598$ million.

For status of consolidated cash flow, cash and cash equivalents ("funds") at the end of the first quarter decreased by $¥ 28,443$ million compared to the end of previous fiscal year to $¥ 31,756$ million.

## (Cash Flows from Operating Activities)

Funds provided by operating activities was $¥ 3,908$ million. This is mainly attributable to the result of subtracting the decreases such as $¥ 3,863$ million payment of income taxes from the increases in funds such as from $¥ 9,024$ million of income before income taxes and minority interests.

## (Cash Flows from Investing Activities)

Funds used in investing activities was $¥ 29,807$ million. This was mainly due to the payment of $¥ 19,761$ million-arising from the acquisition of investments in securities including the purchase of $25 \%$ of the shares of EMPI, who holds interests in the Kangean block in East Java, Indonesia-and the payment of $¥ 10,960$ million for acquisition of property, plant and equipment.

## (Cash Flows from Financing Activities)

Funds used in financing activities was $¥ 2,642$ million. This was primarily due to a payment of cash dividends of $¥ 1,130$ million and the repayment of long-term debt of $¥ 1,139$ million.

## 3. Qualitative Information Concerning Consolidated Forecast

The forecast for the interim and full-year period released on May 14, 2007 has been revised. Please refer to the separate "Notice of Financial ForecastRevision for the Year Ending March 31, 2008" released on the same day of this report, August 10, 2007.

## 4. Others

(1) Changes in significant subsidiaries during the period (change in specified subsidiary affecting the scope of consolidation): No
(2) Use of simplified accounting procedures

The simplified accounting method is adopted in part, for applications such as recording the tax expenses-obtained by multiplying the estimated effective tax rate by the income before income taxes and minority interests for the first quarter reporting period-as the income taxes and minority interests.
The simplified accounting method is applied in part to other procedures where the impact on the amount is slight.
(3) Changes in accounting treatment from the latest consolidated fiscal year: No
